In STEM, the junior students are participating in the River Detectives program. The school is participating in some citizen science. Students are responsible for performing scientific measurements on McIvor Creek to check on its health. The results are reported and available for the scientific community to monitor. Monthly updates will be included in the newsletter, or you can look for the results poster on the glass doors at the office. Here are some students modelling the equipment they use with some work for the newsletter.

Heathcote Primary School has a Private Group page on Facebook. We currently have 104 members. If you would like to become a member of the group, search for Heathcote Primary School and request to join. Each request is approved individually. For the safety of our students, there are three questions to ensure that only people directly connected to HPS become members. Requests are usually approved within 48 hours. However, if we are unsure of the connection to the school, there may be a delay whilst we do some research. We may also decline the original request and seek further information. Please don't be offended—our intention is to make sure we can identify each person as it is a Private Group. We ask that no images are shared / screenshot.

We started the week with a morning tea in honour of Mother's Day and all the mums, carers and special people in our students' lives. The weather was on our side and morning tea was followed by shared reading outside. Thank you to everyone who was able to join us today. We hope you enjoyed it!
